PROFESSIONAL SUMMARY

IT Support and Junior Network Technician (CCNA) with hands-on experience delivering first- and second-line support, endpoint administration, and network troubleshooting in academic and technical environments. Skilled in Active Directory, LAN/Wi-Fi monitoring, backup verification, systems support, and incident escalation. Proven ability to manage IT assets, documentation, structured cabling, and switching tasks. Motivated to contribute to hybrid desktop, systems, and junior network operations.

CORE TECHNICAL SKILLS

Tools & Platforms

- Service Desk: ServiceNow, Zendesk, Freshservice
- Remote Support: AnyDesk, RDP
- Network Tools: Cisco Packet Tracer, Wireshark

IT Support & Systems

- First- and Second-Line Support
- Windows OS, Linux (Basic)
- Microsoft 365 (Outlook, Teams, SharePoint)
- Active Directory (Users, Groups, Permissions)
- Backup Verification & Basic Recovery
- IT Security Awareness
- Incident Escalation & Compliance
- SOPs & Technical Documentation

Networking & Infrastructure

- CCNA Routing & Switching
- LAN & Wi-Fi Monitoring and Troubleshooting
- Switch Configuration, VLANs, IP Addressing
- Firewalls, ACLs, Secure Wi-Fi Deployment
- Structured Cabling, Patch Panels, Cable Management
- Network Monitoring & SNMP Exposure

CERTIFICATIONS

- Cisco Certified Network Associate (CCNA) – Dec 2024
- Ethical Hacker – Cisco Networking Academy – Jul 2025
- IT Essentials – Jul 2025
- Introduction to Cybersecurity – Mar 2024
- Network Addressing & Troubleshooting – Mar 2024

WORK EXPERIENCE

IT Technician (WBE Internship)

Ekurhuleni East TVET College – Main Campus

Jan 2024 – Aug 2025

- Delivered first- and second-line support for hardware, software, user accounts, and network issues across campus.
- Performed endpoint, desktop, and Active Directory administration.
- Supported LAN and Wi-Fi troubleshooting, network monitoring, and switch configuration.
- Assisted senior IT staff with authorized network configuration and incident escalation.
- Verified backups, supported recovery procedures, and ensured compliance with IT policies.
- Coordinated structured cabling activities and supported infrastructure deployments.
- Maintained IT asset registers, SOPs, technical documentation, and classroom IT infrastructure.

PROJECTS

Campus Network Infrastructure Upgrade

- Installed and configured switches across three classrooms supporting 60+ workstations.
- Performed structured cabling, patching, and physical network setup.

Secure Academic Network Implementation

- Designed and deployed a secure LAN and Wi-Fi network using firewall policies and ACLs.
- Conducted network simulations using Cisco Packet Tracer prior to physical deployment.

Portfolio Website

- Designed and built a personal portfolio using HTML, CSS, and JavaScript.

EDUCATION

NCV (NQF Levels 2–4): Information Technology & Computer Science

Ekurhuleni East TVET College — *Completed 2024*
